**Martin Luther King, Jr. Celebration | A Dream: The Wake-Up Call**

Campus Center Multipurpose Rooms

Dr. Marc Lamont Hill, a leading intellectual voice in the U.S., host of BET News, CNN political contributor, and award-winning journalist, will address social justice and our responsibility to address injustice in today's society. Dr. Hill is a recipient of awards from the National Association of Black Journalists, GLAAD, and the International Academy of Digital Arts and Sciences; he is the Steve Charles Professor of Media, Cities, and Solutions at Temple University and held positions at Columbia University and Morehouse College. Since his days as a youth in Philadelphia, Dr. Hill has been a social justice activist and organizer. He is a founding board member of My5th, a non-profit organization devoted to educating youth about their legal rights and responsibilities; a board member and organizer of the Philadelphia Student Union; and works closely with the ACLU Drug Reform Project; and national campaigns to end the death penalty.

**IFE Shared Learning | Recognizing Human Trafficking Victims Here in Maine**

Alfond 304

Human Trafficking – the coercion and force of individuals into prostitution, domestic and other services through sexual, physical and/or psychological violence – is a significant and unrecognized problem in Maine. Please join us for interactive discussions with Ridolphine Katabesha, Anti-Trafficking Case Manager at Preble Street, to learn how students can recognize potential trafficking victims in field placements/clerkships and the workplace. Preble Street Anti-Trafficking Coalition offers resources to furnish survivors with tools, advocacy and stability for resilience and recovery.

### Stigma and Recovery: Change Attitudes, Change Actions, and Champion Recovery in Healthcare

Decary, Chretien Function Room 2

We are change agents when it comes to creating recovery-ready healthcare organizations, communities, educational institutions, and service agencies. This program explores the impact of stigma on people living in or seeking recovery from substance use disorders; engages participants in identifying structural, public and self-stigma; and identifies ways to adopt language and take actions to align with and support the development of recovery-oriented language, healthcare, and self-efficacy and community engagement.
