

PHI/CDC GLOBAL HEALTH FELLOWSHIP PROGRAM

The **PHI/CDC Global Health Fellowship Program**, implemented by the Public Health Institute, is a Centers for Disease Control and Prevention funded fellowship that supports promising emerging global public health professionals to develop technical skills needed to **respond to today's public health needs and challenges**.

Fellows have the exciting opportunity to receive guidance from leading experts within CDC's Center for Global Health while making meaningful contributions to real world projects around the world and domestically across six technical areas:

-  **Epidemiology**
-  **Monitoring & Evaluation**
-  **HIV Prevention**
-  **Program Management**
-  **Surveillance**
-  **Strategic Information**

FELLOWSHIP AT A GLANCE

- Full time, **one-year placements** within CDC offices worldwide
- **Minimum Requirements**
 - Master's degree or PhD in Public Health from a CEPH accredited school or program
 - Recent graduate must receive Masters or Doctorate degree prior to beginning of fellowship or within the last five years
 - U.S. citizen or legal permanent resident and authorized to work in the U.S.
- **Guidance from leading experts** within CDC's Center for Global Health
- Access to **training and professional development** advice and resources
- Stipends for 2018-2019 placements are **\$48,109 (Master's level)** and **\$53,137 (Doctoral level)**
- Predetermined **supplemental allowances** for housing, local travel, travel/training, and health
- Overseas fellows receive a **one time shipping** allowance
